WORK EXPERIENCE

Tata Consultancy Services October 2017
- February 2019
Server Engineer
Chennai - Karappakkam, Tamil Nadu

As a part of an Server team that is responsible for maintaining a large IT infrastructure environment, I got hands on experience on managing virtual machines and physical machines in VMware and MDT(SCCM), and perform L2 administrative tasks.

- Provisioned the servers based on the client requirements
- Configuration, Administration, Troubleshooting of Windows Server 2016 (Windows Server Update Services, Active Directory Domain controller, DHCP, DNS, Containers)
- Installation, Configuration and management of Microsoft Deployment Toolkit, System Center Configuration Manager, Docker.
- Implemented various network security tools(Packetfence), Vulnerability scanners (Nexpose, Nessus, W3af, Acunetix)
- Performed various Internal Penetration testing from Network and web applications and recommendations were provided.

Tata Consultancy Services February 2019
- Current
Cyber-Security Analyst
Chennai - Siruseri, Tamil Nadu

I have been working as a Security Operation Center - Analyst for one of the famous banks in Chicago to help the infrastructure safe from malicious hackers.

- Performed the Installation, configuration of SPLUNK instance.
- Configured Splunk Enterprise Security Modules and Created the Correlation searches responsible for detecting security and health incidents.
